Programs for Inclusion and Diversity Among Individuals Engaged in Health-Related Research

What?
An all expenses paid research career-advancing opportunity supported by NHLBI.

Nine sites with mentored research training programs address difficulties in establishing independent research and in negotiating academic ranks.

Desired outcome is to enhance the diversity of the biomedical research workforce through Mentored Programs offering research experiences, skills development and grant writing training from Junior Faculty from Diverse Backgrounds.

Training Includes:
- Didactic courses
- Grant writing and grantsmanship courses
- Special topic conferences and lab skills
- Mentoring networks
- Small Research Project (SRP)

Who?
U.S. citizen or permanent resident who is a junior faculty member holding a doctoral degree, such as a PhD, MD, DO, DVM, or a transitioning post-doctorate trainee. Individuals from groups listed in NOT-OD-20-031 are highly encouraged to submit applications.

A successful applicant must have a research focus that is centered on heart, lung, blood or sleep (HLBS) disorders, involving methods such as health disparities or other approaches.
