

# Arizona PRIDE

## RESEARCH TRAINING PROGRAM

The nation, including the state of Arizona with a population that is 35% Latino and Native American, suffers from staggering health disparities contributed to, in part, by the absence of a diverse biomedical and healthcare workforce. The primary objective of the AZ-PRIDE program is to provide advanced training in an interprofessional environment to qualified candidates from backgrounds that are underrepresented in the biomedical sciences, who are committed to addressing Heart, Lung, Blood, and Sleep (HLBS) health disparities through impactful research. AZ-PRIDE mentees will receive training that facilitates successful team science career development and that contributes to decreases in health disparities.

Mentees will have the opportunity to participate in experiential skill development. The Summer Institute will provide scholars with an intensive training and mentoring experience in health disparities research, which will be further developed throughout the year-long program. Additional Summer Institute experiences will include visits to US-Mexico border and Native American communities.

Training will include experiential skill development in:

- Grantsmanship
- Scientific Writing Strategies, Presentation and Bioethics
- Community-Based Participatory Research
- Design & Analysis of Health Outcomes & Effectiveness Research
- Epidemiological/Bio-statistical Methods
- Interprofessional Career/Leadership Development
- Structured Mentoring

Health Disparities Research

### All Expenses Paid Program!

The AZ-PRIDE program will provide advanced training in Heart, Lung, Blood and Sleep (HLBS) health disparities through impactful research.

### Program Components

- Summer Institute I  
(June 4-16, 2017)
- Mentoring and Skill Development  
(ongoing)
- Mid-Year Visit  
(December 2017)
- Annual Meeting for PRIDE Scholars  
(April 2018)
- Summer Institute II  
(June 10-15, 2018-tentatively)

### Eligibility

Junior Faculty members underrepresented in the biomedical sciences workforce.

### How To Apply

Visit <http://azpride.ahsc.arizona.edu> for applications and program details.
